no corporation is enthusiastic about paying tax yet islamic banks in indonesia voluntarily pay corporate zakat why the book analyzes corporate zakat norms and practices in indonesia by investigating how muslim jurists have interpreted sharī'a of zakat and how these have been imposed through the legislative and regulatory framework it also presents original case studies based on sociolegal field research on the reception of the new obligations in the islamic banks that choose to pay and choose not to pay what is effectively a new tax the book argues that the dynamics of sharī'a interpretation imposition and compliance in indonesia are too complex to be defined using the binaries of the religious versus the secular public versus private or tradition versus modernity the corporate zakat context has revitalized the existing governance strategy in islamic legal tradition and created a shared islamic law vision between islam and the state consequently this fusion generates a mixed legal and religious consciousness toward corporate zakat addressing broader discussions on islamic law and modernity the book will be of interest to academics working on asian and comparative law sociolegal studies anthropology of indonesia business studies of the islamic world islamic sharī'a economics islamic law and politics islamic legal studies muslim society and islam in southeast asia

this volume pulls together a remarkable collection of contributors designed to challenge the positive normative dichotomy in economic methodology the intent of this publication is to provide a reference manual for those seeking insights into the connections between economics and ethics it succeeds in that goal and should become a starting point for anyone who believes that mainstream economics needs methodological reorientation anyone interested in ethics and economic methodology would do well to have this reference book handy highly recommended j halteman choice this new handbook of economics and ethics makes a substantial contribution as a wide ranging up to date reference work including original developments on these two fundamentally interconnected fields this contribution is particularly timely given the increasing attention being paid to economics as a moral science the handbook contains seventy five expert entries on subjects ranging from the history of economics and philosophy to conceptual analysis of ethics in various aspects of modern economics while representing a diversity of views sheila dow university of stirling uk the handbook of economics and ethics portrays an understanding of economic methodology in which facts and values though distinct are closely interconnected in a variety of ways from theory building to data collection and from modelling to policy evaluation this encyclopaedic handbook is at the intersection of economics and ethics irene van staveren and jan peil bring together 75 unique and original papers to provide up to date insights on topics such as markets globalization human development rationality efficiency and corporate social

responsibility the book presents contributions from an array of international scholars using methodological and theoretical approaches and convincingly demonstrates the death of the positive normative dichotomy that so long held economics in its grip this invaluable resource will strongly appeal to students of economics and economic methodology philosophy of science and ethics it will also be of great benefit to academics and policy makers involved in economic policies and ethics

according to diverse indices of political performance the middle east is the world s least free region some believe that it is islam that hinders liberalization others retort that islam cannot be a factor because the region is no longer governed under islamic law this book by timur kuran author of the influential long divergence explores the lasting political effects of the middle east s lengthy exposure to islamic law it identifies several channels through which islamic institutions both defunct and still active have limited the expansion of basic freedoms under political regimes of all stripes secular dictatorships electoral democracies monarchies legitimated through islam and theocracies kuran suggests that islam s rich history carries within it the seeds of liberalization on many fronts and that the middle east has already established certain prerequisites for a liberal order but there is no quick fix for the region s prevailing record of human freedoms

in towards a post covid global financial system a team of experts explore how covid 19 has affected the most vulnerable parts of the global economy how it has been met by islamic banking and finance and how the principles of islamic social finance could be used to have a fairer more resilient islamic finance system for all

contributed articles

the global islamic resurgence of the last two decades has spawned parallel intellectual efforts to articulate an alternative islamic way of life this volume critically assesses much of what is said to be islamic economics today its theories assumptions concepts and the alternatives it claims to offer while critical of much of contemporary islamisation and the interests such economic policies protect the current relevance of progressive policy alternatives inspired by islamic economic morality is also analyzed
